(c) the reasons for not making coal available to the power plants which is the most crucial for power generation?

THE MINISTER OF STATE OF THE MINISTRY OF COAL (SHRIMATI KANTI SINGH): (a) Yes, Sir.

(b) Demand for coal for meeting the requirement of industries and generation of power as proposed in the draft report of the Working Group on Coal and Lignite for the IXth Five Year Plan is 439.70 million tonnes excluding 11.20 m. tes. of washery middlings. As against this, total indigenous coal production has been projected at 346.56 million tonnes.

The Government have, subject to legislative changes, decided to offer new coal blocks, without the restriction on coal mining for captive consumption only, to the Indian Companies on the basis of competitive bidding. The successful bidder will be free to sell coal in the open market and will be allowed to charge any price negotiated between him and the consumers.

(c) The total despatches of coal which was 187.86 million tonnes in the year 1995-96 is expected to be 201.4 m.t. in 1996-97 an increase of 7.2% Commensurate with increase in coal despatches, the power generation performance of coal based thermal power stations during the period April, 1996 — February, 1997 has also increased by 6% over the corresponding period of last year.

Joint venture in mining projects

2278. SHRI RAMDAS AGARWAL: Will the Minister of COAL be pleased to state:

(a) whether Coal India Limited has planned to invite foreign companies to form joint ventures in mining projects and mechanised mining;

(b) if so, the details thereof indicating CIL's coal production capacity in million tonnes till date as compared to last year as well as borrowing from the Centre during this period; and

(c) the steps CIL have taken so far to reduce ash content percentage in coal, improvement in production and productivity of coal with latest technology?

THE MINISTER OF STATE OF THE MINISTRY OF COAL (SHRIMATI KANTI SINGH): (a) No, Sir.

(b) As per information received from Coal India Limited (CIL) the production of raw coal by CIL upto February, 1997 has been 222.42 (provisional) million tonnes as compared to 209.27 million tonnes during the same period of last year of 1995-96. The total production of raw coal of CIL during the entire period of 1995-96 was 237.28 million tonnes.

The company has not borrowed any amount from the Centre during the current financial year of 1996-97 till date. However, CIL's borrowings from the Centre during 1995-96 was Rs. 288.72 crores.

(c) In order to reduce ash content percentage in coal, modernisation of existing washeries of CIL and construction of new washeries by the Company both for coking and non-coking coal are in progress.

For increasing coal production and productivity the following steps have been taken by CIL:—

(i) Opening of new mines and increasing efficiency;

(ii) Improving equipment utilisation in opencast mines;

(iii) Phasing out uneconomic mines where potential for improvement does not exist;

(iv) Reorientation in investment programme with a higher thrust on short gestation and higher capital output ratio projects to open up gainful re-deployment oppertunities to redundant employees of the closed mines and also to unutilised/ under—utilised workforce engaged elsewhere;

(v) Mechanisation of underground mines by introducing mechanical loadig at the coal pit and transportation of coal by conveyors, being taken up in a large way in several mines.

(v) Invitation of global bids for optimisation of coal production in seven underground mines of South Eastern Coalfields Limited by introduction of modern technologies on gain/risk sharing basis.
